

Update on Selection Criteria for DTB Pokal Team Challenge

Considering that the DTB Pokal is primarily a team event, it is preferred to send a strong overall team that will give us the maximum team score. The focus is on team challenge and then additional apparatus championship is secondary, with only 1 gymnast per NF allowed in Apparatus Finals.

Accordingly, the method of selection of the gymnasts for DTB Pokal Team Challenge is updated as under:

1. Shortlist of Top 15 gymnasts based on current rankings as per attached results from the Selection Trials. Rankings are according to the RATING derived as per the formula that was detailed out in the general Selection Criteria.
2. During the National Coaching Camp, 2 model tests shall be conducted, one on 14th February and other on 16th February 2026. The shortlisted gymnasts need to attend the Model tests and perform in the apparatuses of their choice to get evaluated for final selection. The higher score from the 2-model test will be considered for evaluation.
3. The Selection of Gymnasts will be finalized on the basis of scores so as to get maximum Team Score. Various combinations of gymnasts shall be analysed by the Selection Committee with the help of respective TCs and National Coaches to get the best combination of gymnasts to give us maximum team score.

For and on behalf of the Selection Committee

Dr Kalpana Debnath

Chair Selection Committee
